

Step 1. Start  
Step 2. Initialize  $l=0$ ,  $w=0$ ,  $area=0$   
Step 3. Input  $l=0$ ,  $w=0$   
Step 4. Compute for the area of the given length and width  
 $area=lw$  or  $area=(l)(w)$   
Step 5. print area  
Step 6. End
